Subject: Round 2 recommendations

The Bay Area also worked very hard to prepare a strong Round 2 proposal. While we would have like to have scored higher, we're grateful for the full funding recommendation. It should be pointed out that from the beginning of IRWM we worked hard to bring all IRWM regions in the funding area into one large IRWM region. This has eliminated the concerns about "local competition" and helps us concentrate on DWR grant guidelines, Thanks for all your hard work!
